Subject:- Rural Postal Facilities - Village Deliverers.
Ref'nce:- Item No.198 - Minutes of District Commissioner's Conference of 29th December, 1944.

As regards the provision of uniform, this matter is receiving the consideration of Government.

2. I agree to Village deliverers being paid at a consolidated rate of LP.10 per month plus LP.2 per month animal a allowance ~~where~~ where it is certified that an animal is necessary. It should perhaps be made clear at this stage that there can be no question of any further increases and that these rates will require to be reviewed annually in February with a view to their reduction should there be a drop in the cost of living. When this service was commenced in 1943, the estimate cost was LP.1500 per annum, and now, less than two years later it costs approximately LP.5000. The latter figure does not include the cost of uniforms.

3. I shall be glad if you will kindly notify this Office of the number of deliverers who are required to use animals.

The approved charges payable by you, by way of wages, Compensatory Allowances and Donkey Allowances, in connection with above service should be allocated against the financial allocation issued to you by this Department and amounts quoted thereon should not be exceeded.

2. When comparing paid vouchers just received from the office of the Accountant General with expenditure shown on monthly returns it has been observed that payments, such as the enclosed voucher No.95, were not included and there is no trace on the voucher indicating that the amount of LP.19329 mils was allocated against the financial allocation provided.

3. Apparently the voucher represents adjustment in respect of Compensatory Allowances and therefore, the voucher should show:-

Handwritten notes in cursive script, mostly illegible due to fading. The text appears to be organized into several lines, possibly representing a list or a series of observations. Some words like "1947", "1948", and "1949" are faintly visible, suggesting a timeline or a series of events.
